

## POINT CLICK EVENT

*PC Conferencing has the experience, technology and customer service to make communication events a complete success*

**ALL MEETINGS ARE NOT CREATED EQUAL.** Sometimes the presenter, the content and the audience make an upcoming presentation more important and high profile. Maybe it's a rollout of a new offering or an announcement about earnings or a merger or acquisition. PC Conferencing has the experience, technology and customer service to make these communication events a complete success.

Let PC Conferencing help you **SET UP, MANAGE AND EXECUTE** your critical audio and web conferencing events to make sure they go flawlessly. We can even help you notify, register and update participants. Our Point Click Event service lets you communicate information to many people at one time in a more formal, managed setting. Our **EXPERIENCED, ATTENTIVE OPERATIONS STAFF** will ensure you have one less thing to worry about—you focus on the people and the message; we'll take care of the rest.

**Call 800-839-9976 today  
to learn more or get started.**

# POINT CLICK WEB

*Show your audience what you are talking about with Point Click Web from PC Conferencing.*

Our **SIMPLE, AFFORDABLE** “always on” web conferencing service adds an interactive visual element to your meetings and events, making them more effective and impactful.

Increase comprehension and retention in training sessions by adding visuals to your voice. **ENGAGE** customers and prospects through webinars and online demos of your software, products and website. Rollout new products and programs to customers, partners and employees. Share slides of your results with investors and board members. Extend the life and reach of your message through multimedia archives.

Point Click Web is **EASY** to use — anyone with a computer, **PC OR MAC**, and Internet access can participate. Our service is also flexible and inexpensive. **An hour web meeting with five people costs less than \$50.** Choose the pricing model that fits your budget – from a per minute pay-as-you-use model or an unlimited, all-you-can-use flat monthly fee.

Accelerate your business meetings with Point Click Web from PC Conferencing.
